EDUCATION

George Fox University

Bachelor of Science in Computer Science and Cybersecurity

GPA: 3.92, *summa cum laude*

May 2026

Newberg, OR

PROFESSIONAL EXPERIENCE

Associate Software Engineer

TZ Medical

May 2026 - Present

Tualatin, OR

- Contributed to React-based IoT healthcare platform for remote cardiac analysis.
- Implemented backend pagination to optimize data retrieval, cutting latency on data-heavy pages from 25s to 100ms.
- Managed microservices in Kubernetes, integrating with Google Cloud and Cisco Jasper.
- Followed Agile Scrum, owning user-stories from start to finish by translating user needs into implementation.
- Resolved customer support tickets by diagnosing, troubleshooting, and implementing bug fixes.

Software Engineering Intern

A-dec

January 2025 - December 2025

Newberg, OR

- Maintained A-dec's flagship iOS and Android mobile app used by dentists nationwide.
- Built a service to sync Azure B2C user data to PostgreSQL via Microsoft Graph API, enabling easy access for business analytics. Automated the process via a Gitlab pipeline to ensure continuous synchronization.
- Initiated technical debt reduction plan to improve long-term system maintainability and security.
- Conducted security research and ran audits across multiple projects, proactively mitigating risk.
- Authored OpenAPI specs for all routes to allow integration with third-party API users.

PROJECTS

Document Management System

Senior Capstone Project

May 2026

- Project manager and lead for a 4-person student team to develop a new document management system for TZ Medical.
- Migrated legacy MySQL database to PostgreSQL, consolidating schema size by 95% and improving indexing.
- Developed data pipelines to ingest, transform, and store existing data to synchronize new and legacy systems efficiently.
- Implemented a full-stack application with searching to enable effortless and efficient retrieval of documents.

National Cyber League

Placed 150 / 7011 (98th percentile)

April 2026

- Skills utilized: OSINT, Recon, Cryptography, Logs, Networking, DFIR, Web Exploitation, Reverse Engineering

TECHNICAL SKILLS

Languages

JavaScript, Python, Java, Go, C/C++, Bash

Frameworks/Libraries

ReactJS, NodeJS, Pandas, Matplotlib

Cloud & Tools

Linux, Git, JIRA, Docker, AWS, Azure

Database

SQL, PostgreSQL, MySQL, DynamoDB

Cybersecurity

Nmap, Wireshark, Burp Suite, Autopsy, Ghidra, GDB
